

Emulsion Transfer Passport

After completing the Passport Awareness Training a 'Passport Card' should be issued to the Delivery Driver/Sprayer Operator.

It is recommended that the Passport card should be credit card in size and contain the name of the individual (including a photo image if possible) and the date of completing the training and/or the date of expiry.

The passport training must be refreshed every three years for all delivery drivers and sprayer operators and undertaken for any new drivers or operators prior to carrying out the transfer procedure.

Examples of the passport cards are on the next page:

Safe Emulsion Delivery Passport

- Tanker to Sprayer Expiry: 31/03/21

Driver: **Joe Bloggs**

REA Safety Passport Template
